

## Global Environmental Economics Seminar #20

A meeting on Research Unit for Realization of Sustainable Society

# Climate Change and Community Resilience: Insights from South Asia

## Dr. Mani Nepal

Lead Economist and Program Coordinator, International Center for Integrated Mountain Development (ICIMOD)

Visiting professor, Graduate School of Global Environmental Studies, Kyoto University

Dr. Nepal will discuss the key elements their recently published book, *Climate Change, and Community Resilience: Insights from South Asia*. At a time when climate change presents humanity with a gloomy future, the stories of innovation, creativity, grassroots engagement, and locally applicable solutions highlighted in this book provide insights into hopeful ways of approaching climate solutions. Dr. Nepal will also discuss how South Asian countries have been dealing with the impact of climate change for decades and thus offer valuable learning opportunities for developing countries within and beyond the region as well as many western countries that are confronting the wrath of climate-induced natural disasters more recently.

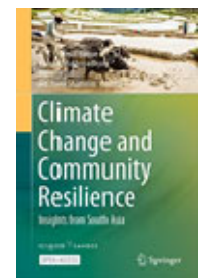

This seminar is anticipated to be relevant to those who are interested in environmental issues in rapidly urbanized developing world, especially transformative changes for climate change adaptation.

## Global Environmental Economics Seminar #21

A meeting on Research Unit for Realization of Sustainable Society

# Impact of the decarbonisation targets on businesses

**Dr. Vaibhab Pratap Singh**

Programme Lead, Council on Energy, Environment and Water (CEEW),  
India

Sustainability is the key word that would be driving transitions the world over. These transitions will impact the businesses and their associated cash flows. Companies that could stay relevant will be able to preserve the cash flows and increase them. The session will cover strategies that have worked through some case studies.

This seminar is anticipated to be relevant to those who are interested in environmental issues, especially sustainable transitions.

**Date and Time:**  
**14 September 2022 (Wed),**  
**16.20-17.30**

Venue: Room 453, 4th Floor, Research Bldg  
No 3 (Bldg No. 35), Kyoto University
