

Team Sustainability Transitions Seminar #22

A meeting on Research Unit for Realization of Sustainable Society #4

## On the Road to Net-Zero: Taiwan Response

Dr. Yi-Ching Lee/李宜卿

Researcher, Department of Political Science

National Taiwan University, Taiwan

Discussant:

Dr. Yi-chun Chen, Institute for Future Initiatives, University of Tokyo

In this seminar, Dr. Lee will give an overview of the global trend and discussion about the “Net-Zero (emission) Transition”, with a brief introduction of policy responses of the Taiwan Government in this context. Also, Dr. Lee will highlight the city and local perspective of the Net-Zero Transition, and give some examples of how the local government and community in Taiwan are concerned and respond to this issue.

This seminar is anticipated to be relevant to those who are interested in sustainable energy transitions, and climate-energy policies in Taiwan.
